Attention

Coronavirus Precautions

Due to the recent coronavirus outbreak, we have now updated our hygiene policy. Cleaning with antibacterial/virus killing products will be carried out between all sessions as normal. Alcohol hand sanitiser will now be available which you will be required to use when entering the facility. Anyone feeling unwell will not be allowed to participate in a study and we require all to be aware of their personal hygiene (sneezing/coughing into a tissue, washing hands regularly etc.) and be considerate to other consumers. Anyone not complying with this will be asked to leave the facility.

If you have returned from any of the UK Government listed areas in the past 30 days please do not enter our facility.
